Work Experience

Software Developer

Razorfish-Gurugram, Haryana

Full-time

December 2023 to Present

- Developed and maintained an eCommerce website using the Spryker platform, focusing on enhancing user experience and functionality.
- Utilized Redis, Elasticsearch, RabbitMQ, and Jenkins to enhance the eCommerce store's performance, search capabilities, messaging efficiency, and deployment processes.
- Led API development and integration efforts, ensuring seamless data exchange between systems and third-party services.
- Documented processes and provided technical support to team members, fostering knowledge sharing and collaboration.

Associate Software Developer

Razorfish-Gurugram, Haryana

Full-time

January 2022 to December 2023

- Collaborated with an eCommerce architect to develop and maintain web applications using Laravel, Magento, and Spryker.
- Assisted in the design and implementation of features to enhance user experience and functionality for various eCommerce platforms.
- Conducted code reviews and participated in team meetings to ensure alignment with project goals and best practices.
- Debugged and resolved issues in collaboration with senior developers, improving application stability and performance.

- Gained hands-on experience in API integration and contributed to the deployment of new features in a fast-paced environment.
